Seasonal Instructors 2016 at Waterland

Fun loving Outdoor instructors are needed to join our team at a great location in the Cotswolds. You will be required to teach sessions from tasters through to skill level courses. Over the season you will have the ability to develop all your teaching skills and add to your experience toolbox.

Here at Waterland we work together, and play together too. You will have time to play on the lake, have bbqs and enjoy the facilities here through the season. A friendly centre building on our strengths year on year.

We are looking for seasonal instructors with one or more of the following National Governing Body instructor qualifications:

Sailing
Kayaking/Canoeing
Windsurfing

Other activities we run are archery, low ropes, raftbuilding and general problem solving. If you hold experience and/or qualifications in these areas, that will be a bonus.

Working up to 5 days out of 7, including weekends, with taster sessions, lessons and courses, you will never be bored. We work across the board from young people to adults, from fun to teaching skills, from tasters to qualification courses.

We take on instructors from now to September/October and variations in between. Pay rates will depend on skills and experience.

Waterland is a successful outdoor activity and training company based in the Cotswold Water Park near Cirencester.

We are an Investor's in People organisation. We are approved by the RYA and BCU.
