Seasonal Hire Posts 2016 at Waterland

Fun loving young people are needed to join our team at a great location in the Cotswolds. Your role will be to cover the hire side of the business. This will involve greeting and meeting our customers, fitting buoyancy aids, processing payments and ensuring the kit is issued and returned in good order. You will also deal with customers bringing their own kit to the lake, ensuring they are safe and have paid the correct fees.

A love of the outdoors, interacting with people and a quick mind are the qualities we require for this post. If you have powerboat driving experience and qualifications this will be a bonus. Age 16 + we can train you on powerboat driving for this post.

Here at Waterland we work together, and play together too. You will have time to play on the lake, have bbqs and enjoy the facilities here through the season. A friendly centre building on our strengths year on year.

Working up to 5 days out of 7, including weekends, you will never be bored.

We take on hire staff from March to September/October and variations in between. Pay rates will depend on skills and experience.

Waterland is a successful outdoor activity and training company based in the Cotswold Water Park near Cirencester.

We are an Investor's in People organisation. We are approved by the RYA and BCU British Rowing And BUSPA.
